

Let's Do Science!

What forces can you find? See for yourself!

What to Get

- balloon
- large pail
- water

What to Do

- 1 Fill a large pail about two-thirds full with water.

- 2 Blow up the balloon and tie it closed.

- 3 Push the balloon gently into the water. Let go. What happens?

- 4 Push the balloon all the way to the bottom of the bucket. Let go and stand back! What happens?

- 5 What did you notice? Draw and label pictures to show what forces were at work.
