

Teacher Created Materials has leveled the readers listed below using its own leveling system, developed with reading consultant Timothy Rasinski, Ph.D. We have also partnered with The Lexile Framework® for Reading to establish official Lexile measures for each reader. Additionally, each reader has been correlated to other widely used leveling systems, including Guided Reading by Fountas and Pinnell, and Developmental Reading Assessment® (DRA) by Celebration Press. Some levels include additional text cards that have not been leveled.
