Shapes Are Everywhere!

Shapes are all around you. Take a look around your classroom. What shapes can you see?

Your desk might be a square. The door is a rectangle. The clock on the wall is probably a circle.

What shape are your books and any artwork hanging on the walls?

Your classroom has many shapes.

LET'S EXPLORE MATH

Look at the flag of the United States of America in the classroom.

- Name the different shapes you can see.
- How many of each shape are there? *Hint:* Look for the shape of the flag as well as the shapes inside it.
