

Here's what Educators are Saying!

I think having these clear, concise, practical lessons is wonderfully helpful to teachers.

I love the text-dependent questions for close reading in the lesson plans. They are such a huge time saver for me!

Each part of the guided reading lesson is clear and focused. I especially like the addition of a Close Reading with text-dependent questions. I think anyone from a first-year teacher to a veteran could easily use these lessons in guided reading.

I am thoroughly impressed! Each book features rich text with engaging photos and illustrations that I know my students will absolutely love.

The books are accessible enough that even my struggling readers can make it through, giving them an amazing sense of accomplishment not available with a traditional, thick textbook.
