Explor-eBook

Teacher Created Materials

Designed *by* teachers, *for* teachers and students, *Explor-eBook* inspires a love of reading in ALL students. This supplemental instructional tool fosters an engaging learning environment that can easily be implemented into any classroom setting.

Access more than 500 authentic, nonfiction and fiction books featuring stimulating, rich, and interactive content.

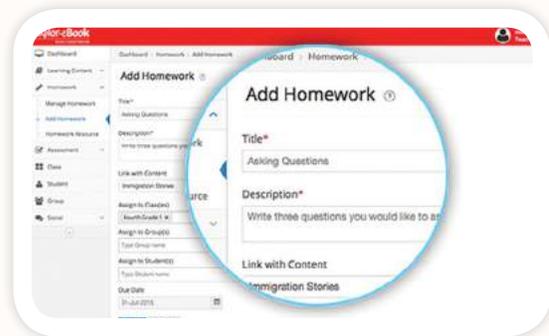

Assessments:

Measure Comprehension. An assessment is included with each book using current question formats to prepare students for today's standardized tests while also providing important proficiency data on comprehension.

Assignments:

Reinforce Learning. Create, assign, and evaluate purposeful homework or in-class assignments to increase student engagement and creativity.

Reports:

Student Name	Count Me In for Lunch?	Staying Healthy	Healthy Habits, Healthy You	Make It Healthy
Student 10	Not Submitted	Evaluation Pending	Evaluation Pending	100%
Student 6	Not Submitted	Not Submitted	Not Submitted	Not Submitted
Student 7	Not Submitted	80%	90%	80%
Student 9	Not Submitted	80%	Evaluation Pending	80%

Gain Insight. Teachers, administrators, and students can view and monitor performance via a variety of activity and proficiency reports.

Communication Tools:

Spark Collaboration. Promote student interaction with the safe and user-friendly blog feature.

Explore the Flexibility of Explor-eBook

Intervention

- Differentiate instruction by providing leveled content to meet students where they are.
- Engage reluctant readers with stimulating, cross-curricular books.
- Gauge reading comprehension with an assessment that uses a variety of standardized testing formats.
- Collect fluency checks, audio, and student data to track progress, which can be used for parent conferences, parent communications, and other parent/school meetings (e.g., IEPs).

◀ Use scripted lesson plans that address specific reading skills.

"My favorite thing about *Explor-eBook* is the Fluency Checks because they allow the teacher to have a more consistent record of the students' oral fluency development. Also, the teacher can share them with parents and help them understand what is meant by oral reading fluency and how important it is to their child's reading development."

Dr. Mel Pace
Osceola County, Florida

ELL/ELD

- Empower English language learners to build language proficiency through the four domains of language; *listening, speaking, reading and writing*, by using the following features:
 - Audio recording of each reader
 - Read aloud recording and fluency checks
 - Comprehension assignments and assessments
 - Blogging and assignment activities
- Promote and build parents' capacity to support literacy and English language development at home through assignments and notifications
- Encourage students to collaborate by providing safe, user-friendly interaction tools.

"The audio support embedded in the platform is a great resource for my ELLs to hear modeled fluent reading and has increased their language acquisition."

Heather M.
Teacher
Texas

Summer School

- Establish a virtual learning environment and assign relevant and interesting books to students, keeping their minds stimulated and preventing summer learning loss.
- Take advantage of the easy-to-follow lesson plans and save valuable teacher planning time.

"We were looking for a better way to keep students meaningfully engaged in text during the summer. *Explor-eBook* has done this for us! Teachers are able to push out books appropriate to students' reading level, and digitally interact with students using the assignment and blogging feature. Using *Explor-eBook*, we have not only been able to stop the 'summer slide,' but in many cases reverse it!"

Eric L.
Library Instructional Technology Specialist
Oregon

Library

- Provide students with a large variety of high-interest, nonfiction and fiction texts at their appropriate reading level.
- Discover what topics students are interested in and monitor reading fluency and assessment data.
- Add a digital reading station to your school library to increase student fluency and integrate purposeful technology.

After-School/Book Clubs

- Establish book clubs and reading groups and assign books by area of interest, reading level, and/or subject.
- Give students a platform to discuss thoughts on assigned books using the blog feature.
- Send alerts and notifications to keep students on track.

"It was refreshing to see the level of engagement and discussion happening between students outside of the classroom!"

Theresa M.
Teacher
Colorado

Use Explor-eBook in the Classroom

Whole and Small Group

- Create dynamic groups of students to focus learning.
- Model proper reading intonation and pacing in both small and whole group scenarios.
- Use the notes and recording tools to model good note taking skills for students.

Learning Centers

- Create a classroom reading center and have students read, blog, and take assessments.
- Collect student data and have them complete fluency checks for teacher review.

Guided Reading

- Easily find appropriately leveled books that meet the needs of all learners.
- Create and assign reading level-appropriate assignments to focus student reading.

School and Home Connection

- Give students over 500 books they can read at home, on or offline.
- Involve parents in their child's reading development by notifying them of reading assignments, goals, and progress.
