

California Social Studies Launch Training

Staying true to the idea that we all “learn by doing,” teachers will actively engage with *Exploring Social Studies: California Edition* to experience what this California-specific resource offers and how it can be used in a variety of instructional settings. Teachers will learn how to integrate this research-based resource into current classroom instruction, while meeting social studies standards with best practices and practical strategies to make student learning more effective.

Attendees will:

- Identify the key components of *Exploring Social Studies: California Edition*.
- Learn how *Exploring Social Studies* is a tool for engaging, standards-based instruction through active learning.
- Discover how to align *Exploring Social Studies* content resources at each grade level.
- Examine *Exploring Social Studies* lesson plans and other support materials.
- Identify how the *Exploring Social Studies* professional resources will further growth as an educator.

In-Service

Teacher Created Materials facilitators deliver in-person workshops to provide product knowledge, delivery strategies, and classroom application ideas for *Exploring Social Studies*.

Webinars

Teacher Created Materials Webinars provide specific grade-level trainings in the *Exploring Social Studies* curriculum.

You will love the convenience and flexibility of our Launch Trainings.
