A Note from the Author

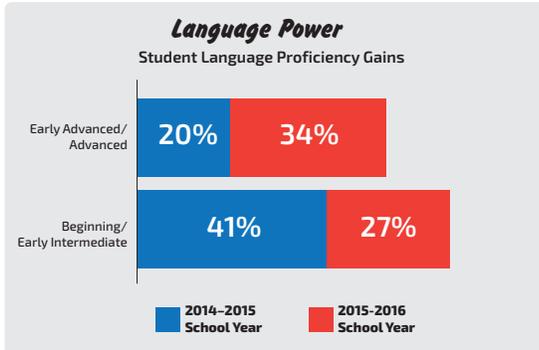

"Teachers and students alike have shared high levels of interest and enthusiasm for the content-rich texts provided through *Language Power*. In fact, teachers have shared with me that the students ask to continue with the lessons even when 'time is up' because they truly enjoy the program. When students enjoy what they are learning, they are more apt to develop language successfully. As a former teacher and English learner, I personally believe that *Language Power* can successfully serve English language learners across the country. *Language Power* makes students feel successful at all levels of language progression."

Eugenia Mora-Flores, Ed.D.
Author, *Language Power*

Proven Results!

In a recent study, *Language Power* was implemented during designated English language development (ELD) time across five schools in a large school district in California. Upon comparing CELDT* scores of these students after one year of implementation, students showed significant gains, up to 14%, in language proficiency levels.

*CELDT is the California English Language Development Test, which is given once a year to measure language proficiency.

"*Language Power* has been an invigorating addition to our English Learner Program. The nonfiction texts are highly engaging and offer a variety of learning opportunities for the students. The Teacher's Guide allows for instructional flexibility to meet the diverse needs of the students."

— April Tulp, Grade 3 Teacher
Moreno Valley, CA

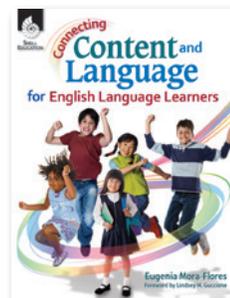

After implementation, more students moved into the advanced levels and fewer students remained in beginner and early intermediate levels. For the full research study, visit us online at www.tcmpub.com/research.
